

Models 106-PGX / 206-PGX

Main Valve Option: External Spring Lift

Specifications:

Select Singer main valve specifications from the main valve section and incorporate the following addendum:

- The external spring lift option shall be incorporated in the main valve to assist opening of the main valve due to insufficient pressure.
- For safety purposes the external spring shall be fully covered with a metal housing (Trip Plate).
- External spring lift is available on all 106 full port models 2" (50mm) to 8" (200mm), and on all reduced port models from 4" (100mm) to 10" (250mm).

Factory installation is highly recommended.
